

YADU KRISHNAN B

Full Stack Developer

📞 8891154935 ✉ ykbs100@gmail.com 🌐 Portfolio 📍 Kochi, India

SUMMARY

I am an experienced Full Stack Developer with 3.5 years in Python development, primarily focusing on API and backend development using Django. I excel in project lifecycle management and am proficient in technical alignment with strong skills in user interface design and database management. My problem-solving abilities, teamwork, and decision-making under pressure contribute to the success of my projects.

EXPERIENCE

L3 Consultant

LINXAS IT CONSULTING PRIVATE LIMITED

📅 09/2024 - 01/1970 📍 Kochi

IT consulting firm specializing in delivering software solutions.

- Lead a team in API development using Django, focusing on model creation, route configuration, and template design.
- Implemented and transitioned authentication from Simple JWT to OAuth, configuring client credentials and testing in Postman.
- Managed database integration with PostgreSQL for file uploads and image storage, leveraging Django.
- Established version control standards by maintaining version and change-log files in GitHub, including repository forking for streamlined collaboration.

Systems Engineer

Tata Consultancy Services

📅 07/2021 - 09/2024 📍 Kochi

Global IT services, consulting, and business solutions organization.

- Spearheaded Python projects involving data manipulation and report generation.
- Implemented OOP principles for robust and scalable code.
- Automated report generation workflows using Apache Airflow.
- Utilized Snyk to identify and mitigate vulnerabilities in the codebase.
- Collaborated with cross-functional teams to deliver high-quality solutions.
- Implemented tests, reducing number of bugs and improving overall quality of the code.
